

ABOUT BATTELLE

We're the world's largest, independent, nonprofit research and development organization. We deliver remarkable science, technology and engineering outcomes while solving our nation's most difficult challenges.

OUR MISSION | To translate scientific discovery and technology advances into societal benefits.

WHAT WE DO

National Security

Delivering mission-critical solutions in the air, on the ground, under water and in cyber space.

Environment & Infrastructure

Safeguarding assets, building dynamic research networks and providing solutions to complex environmental challenges.

Health

Innovating to accelerate discoveries to impact public health, improve patient outcomes, support clinicians, and drive critical research.

Lab Management

Delivering scientific discovery and inspiring innovation with the management role we have in nine national laboratories.

BATTELLE

Innovating for the Future

Our mission is as relevant as ever. We recognize global trends and see where we can help in the areas with greatest needs. **Active Programs Include:**

PFAS

Per- and polyfluoroalkyl substances (PFAS) are an environmental contaminant of concern. Battelle is leading the way in the development of new solutions for PFAS destruction technology and contaminated site restoration.

Research Infrastructure

Battelle's management of the National Ecological Observatory Network (NEON) for the National Science Foundation, as well as our long history of managing nine national laboratories, are just two examples of our expertise in research infrastructure.

Neurotechnology

Battelle works daily at the intersection of science and technology to pioneer ways to help people overcome devastating neurological damage and disorders.

Cyber Microelectronics Trust and Assurance

Battelle is leading the effort to protect critical systems from suspicious or malicious integrated circuits – from our analysis capabilities to our deep multidisciplinary research to shape the next generation of technologies.

Battelle By The Numbers

\$10B

(STEM)

Every day, the people of Battelle apply science and technology to solving what matters most. At major technology centers and national laboratories around the world, Battelle conducts research and development, designs and manufactures products, and delivers critical services for government and commercial customers. Headquartered in Columbus, Ohio since its founding in 1929, Battelle serves the national security, health and life sciences, and energy and environmental industries.
